

## Munster Regional Session - President: Mr. Paul Lavin Committee Topics

### **ECON**

Failure or setback? With some Euro zone countries requiring bail-outs, how should Europe deal with the single currency experiment in light of the economic down turn?

### **SEDE**

A summer of violence. With the Oslo massacre, and seemingly all member states at risk, how best should Europe protect against internal terrorist threats?

### **LIBE**

With the recent discovery of phone hacking at the News of the World, how best can Europe deal with such egregious action, while balancing the rights of individuals with the rights of the press?

### **ITRE**

Energy waste and production: With coal, oil and gas reserves rapidly becoming depleted, how should Europe deal with the rising demand for energy?

### **ENVI**

With current food production methods not meeting the demands of an ever growing global population: should Europe reconsider its position on GM crops?

### **AFCO I**

Given the political unrest surrounding recent elections in Belarus: What strategy should Europe adopt to deal with the continent's last dictatorship?

### **AFCO II**

Considering the recent uprising in Libya: what policy should Europe adopt in order to ensure a peaceful transition of power, while respecting the integrity of a sovereign nation?

### **CULT**

With the current debt crisis: should funding for the Arts be diverted to more "essential" services?

EUROPEAN **YOUTH** PARLIAMENT  
PARLEMENT EUROPÉEN DES **JEUNES**  
ÉIRE IRELAND

T.: @eypireland

## **EMPL**

The young Europeans? Despite greater opportunities of studies or mobility, the current European youth is also particularly unstable and pessimistic. Education, employment, health, culture: what policies can be implemented so that young people find their place in society?

## **TRAN**

Whilst Transport is responsible for more than a quarter of CO2 emissions, how should a comprehensive and coherent transport policy of the EU look in reaction to fears regarding both short and long-term impacts of Carbon
